

Proforce Safety 

Real Life Safety

Find out the REAL meaning of Safety

About Today's presenter:

Tim Simon
Owner, Proforce Safety LLC
www.safetykeynotespeaker.com

Background:

- 10+ years EHS Manager for a Fortune 500 Company
- 15 years active Emergency Medical Technician
- Conference Speaker: 2015 Kentucky Safety Congress
- Guest Speaker for Numerous Companies, Colleges, and Safety Councils throughout the Midwest.
 - Graduate of Malone University
 - OSHA 10/30 Instructor
 - ASC from the National Safety Council

"My Safety Keynote
Presentation will make you
LAUGH, CRY, & LEARN"

Key Takeaways from today's presentation:

- Shortcuts, why do we take them?
- Risks, why we get complacent and accept risky behavior
- The circle of trust and what happens when you lose someone in the circle.
- The answer to why people get hurt, using the 4W Approach To Safety.

In addition, real stories of my experiences will be shared from my time as an EHS Manager and as an Emergency Medical Technician.

Who is missing?

The 4W Approach To Safety

Proforce Safety 

It isn't luck that keeps you safe, it is your habits.

Proforce Safety 

**How does your
injury effect
You & Your Family**

The 4W Approach To Safety

Question:

What happens during an emergency situation when someone is seriously hurt?

WHAT WILL MOST PEOPLE DO?

People Get Hurt....

When doing routine & repetitive work.

80% of injuries occur during routine & repetitive work yet we spend **80%** of our time trying to prevent non-routine work injuries.

- Non Routine Tasks Permits/Forms
- Routine Tasks Permits/Forms

People Get Hurt....

When they take chances.
