Who We Are

- Marathon Petroleum LP (MPC) located in Speedway, IN., across from the Indianapolis Motor Speedway.
- Operations – 40 acres
 - light products terminal
 - area office
 - transport garage
 - transport fleet
- Through this facility we receive, store, load & deliver petroleum products.

Who we are - continued

- ~175 transports/day
 - automated delivery rack
 - Process Safety Management (PSM) facility
- Garage maintains MPCs Midwestern Fleet
- Area office - two area managers & support personnel
- Safe and efficient handling of product from receipt to delivery
- Adhere to strict guidelines and requirements set by MPC and regulatory agencies

How we began

- Speedway Operations - 2nd facility within MPC's Terminal, Transport & Rail Organization to apply for VPP Star Status.
- Initial preparation with IOSHA in mid-2014
 - with planned evaluation in November 2015.

Preparation

- VPP committees:
 - office personnel (area office)
 - terminal operation
 - transport fleet
 - transport garage
- Teams met on monthly basis to monitor and support the progress of the VPP elements

Preparation

- Engage & communicate
 - daily shift starters
 - stretching
 - weekly newsletters.
- Team members attended several VPP Conferences.

Ongoing

- Position ourselves as a VPP leader
 - mentoring others in the VPP process.
 - two certified Special Government Employees (SGE's).

Ongoing

- Management Systems and audits
 - Responsible Care® Tier I, Tier II, Tier III audits
 - drills involving butane release
 - local fire and police departments
 - LEPC
 - Marion County Health Department

Continuous Improvement

- Added an emergency mass notification system
 - semi annual drills
 - fire wardens (Red Hats)
 - storage locations for reflective vests
 - visual identifiers located throughout the facility
 - emergency push gates
